

Windy Hills now has a new park
But it surely is quiet after dark.

The name of the place is Windy Hills Green
And everyone wished for it to be seen.

So a meeting was held and they came to discuss
And they talked and they talked and finally fussed

It was then that they said it needed some lights
There are trees there, big ones, so let's do it right.

Christmas is coming, so we'll spread some cheer,
And the workmen got busy with all of their gear.

Trucks and equipment the delight of small boys,
They all got so busy with their grown-up toys.

Thousands of lights went up on the tree,
Bright and beautiful for all to see.

The news people came and neighbors came too
Pictures were taken - lights red, green and blue.

The tree now was such a beautiful sight
Glowing so brightly all through the dark night.

We thank you councilfolks for all that you do
Our city has something wondrous and new.

Years of work to get it this far,
Finally now it shines like a star.

We thank you our Council for the park and the lights
Merry Christmas to all and to all a good night!
